

THE MAULE RIVER NATURE AND ADVENTURE

Share an unforgettable ecological adventure

5 days and 4 nights

- Santiago – Talca – Santiago (Bus)
- Navigating the River (inflatable rafts and kayaks)
- Camping (4 nights)
- Campfires
- Teamwork

This program is designed to generate practical real-life skills through outdoor experiences. The daily challenges and activities are accompanied by reflections that guide personal growth; teach outdoor skills, environmental awareness, and coexistence with team work.

OBJECTIVES

- Develop team-building skills such as: cooperation, communication, and trust
- Strengthen bonds of friendship and camaraderie; improve interpersonal relationships
- Refine motor skills in contact with nature; internalize a passion for caring for the environment through guided daily adventure

METHODOLOGY

Our methodology focuses on learning through life-experiences with dynamic activities that get in touch with students emotions, break down walls, and create healthy trusting relationships. COE provokes situations that demand team work for success and facilitates a reflection that allows participants to evaluate and be conscious of the essence of working together.

The students learn through inductive reasoning, to experiment and reach their own conclusions as a whole. Through a process of self-discovery each individual is presented with an opportunity to identify and grow from understanding personal behaviors and group dynamics. The activities are carried out in a manner that makes respecting each other's differences an essential component of success.

PROGRAM

- **Day 01:** Santiago – Talca/Curtiduria, we will travel by bus (travel time: approximately 4 hours). There we will have lunch and set up camp.
